EXAMINER'S COMMENT/REASONS FOR ALLOWANCE

1. Claims 21 through 27 are allowable. The restriction requirement between the various inventive species, as set forth in the Office action mailed on August 27, 2009, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 28 and 29, directed to some of the previously non-elected inventive species are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 1 through 20 and 32 through 41, directed to non-elected inventive species remain withdrawn from consideration because these do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Edwin Garlepp, Registration No. 45,330, on October 1, 2010.

3. The application has been amended as follows:

In the claims:

Art Unit: 3744

Cancel claims 1 through 20 and 32 through 41.

Claim 21, line 17: Delete “refrigerant passing holes formed therein at a spacing laterally of the exchanger” and replace with –spaced refrigerant passing holes formed laterally therein--.

Claim 21, lines 21-23: Delete “the refrigerant passing holes on left and right ends, and the left and right ends of the separating means is longer than the distance between the refrigerant passing holes on left and right ends and the holes adjacent to them” and replace with –an end refrigerant passing hole to a respective end of the separating means is longer than the distance between said end refrigerant passing hole and an immediately adjacent refrigerant hole--.

Claim 28, line 1: Delete “A” and replace with --The--.

Claim 29, line 1: Delete “A” and replace with –The--.

4. Upon reconsideration in view of applicant’s amendment to the claims as filed on August 12, 2010, the examiner hereby withdraws the objection to the drawings as cited in the previous Office action.

5. The drawings filed on April 28, 2006 are hereby approved.
